

FACULTY POSITIONS OPEN FOR PhD RESEARCHERS AT UNIVERSIDAD SAN SEBASTIAN (CHILE)

Universidad San Sebastian invites you to apply for faculty positions for PhD researchers to strengthen our research groups and Doctoral Programs in any of our Campuses in Santiago, Concepcion, Puerto Montt-Patagonia and Valdivia (Chile).

We offer full-time permanent positions. Successful candidates should be able to demonstrate their ability to develop their own line of research and to obtain competitive external funding. Ideally, she/he will conduct research within the priority thematic areas of the University.

Along with developing research, selected candidates will join one of our Faculties to carry out undergraduate and postgraduate teaching and academic activities.

Research plan should aim to (either or both):

1. Strengthen our Doctoral Programs in History, Philosophy, Cell Biology and Biomedicine, Immunology and Microbiology, Computational Biology, Biotechnology and Bio-entrepreneurship, Non-communicable Chronic Diseases, Law, Engineering, Education and Psychology.
2. Create research groups in the Faculties of Health Sciences, Medicine and Sciences, Health Care Sciences, Architecture and Design, Dentistry, Veterinary Medicine, Economics and Business, and Digital Design and Creative Industries.

Roles and responsibilities:

- Conduct high-level research.
- Maintain a high level of scientific productivity.
- Carry out undergraduate and postgraduate teaching.

Requirements:

- PhD degree
- Demonstrated ability to carry out independent research, with external funding or that can obtain external financing in the short term.
- Experience in undergraduate teaching and desirable in postgraduate teaching.
- Spanish is the primary language in teaching activities at USS. Successful candidates are expected to learn it within reasonable time.

Background information:

Applicants should complete an application form and upload the following electronic files:

- Curriculum Vitae (including links to Google Scholar and ORCID profiles, list of acquired research funding and research productivity).
- A selection of five major publications in PDF format.
- Time availability (month and year) when candidates are able to join Universidad San Sebastian.
- Two confidential reference letters (PDF format) to be sent to investigacion@uss.cl.
- Research plan and objectives, and how this research would strengthen thematic areas and Doctoral Programs at Universidad San Sebastian (up to two pages).
- Copy of PhD diploma (and evidence of postdoctoral training, if applicable).

Selection criteria:

- Quality of the academic proposal and applicant's knowledge of the topic.
- Feasibility of the research plan and compatibility with USS programs.
- Teamwork capabilities.
- Research funding available will be especially valuable.

Application process:

- Complete application form [HERE](#)
- Deadline for applications: February 27, 2022
- Questions and inquiries: investigacion@uss.cl
